## 🕒 Work Experience

### E-Porter

Aug 2022 - Present

Full Stack Developer

Full time

- Directed end-to-end technology operations for E-Porter's digital ecosystem, spanning the web app, mobile app, and backend infrastructure.
  - \* Developed and maintained full-stack features from concept to deployment, delivering responsive interfaces and backend systems for tracking, messaging, notifications, and payments, while integrating APIs that powered key platform functions.
  - \* Ensured 24/7 platform reliability by managing cloud infrastructure, backups, and App Store deployments.
  - \* Collaborated with stakeholders to translate business objectives into technical solutions and product features.
- Angular, Next.js, React, TypeScript, Node.js, MongoDB, CSS, Express, Ionic, Docker, Google API, Mapbox, Stripe

### Three Trees Technical | Consulting for E-Porter

Nov 2021 - Jun 2022

Full Stack Developer

Full time

- Developed a comprehensive package delivery system in collaboration with a small team for E-Porter.
  - \* Designed and implemented responsive web and mobile app interfaces to deliver a consistent experience.
  - \* Built database models, API controllers, and routing systems to integrate payment processing, delivery logistics, user management, and related platform components.
- Angular, TypeScript, Node.js, MongoDB, CSS, Express, Ionic, Docker, Google API, MapBox, Firebase, BitBucket.

### Metl Solutions

May 2021 - Aug 2021

Backend Developer

Internship

- Collaborated with a Capstone team to build and integrate an MS Teams bot leveraging their API.
  - \* Specialized in chat event handling and backend implementation for the bot.
  - \* Adapted and optimized API REST functions for seamless MS Teams integration.
- Node.js, Python, and Django.

## 💻 Client Websites

### E-Porter

[eporter.com](https://eporter.com)

- Rebuilt a slow site into a fast Next.js app, ensuring reliable access for drivers in low-connectivity areas.
  - \* Reduced load times from over 12 seconds to under 1 second, greatly improving speed and usability.
  - \* Improved SEO and responsiveness for better search visibility and a seamless experience across devices.
- Next.js, React, TailwindCSS

### Platinum Consulting & Co.

[platinumconsultingco.com](https://platinumconsultingco.com)

- Developed a modern, brand-aligned business website with a focus on search visibility and user experience.
  - \* Leveraged Astro's static-site generation for near-instant page loads and top-tier Lighthouse scores.
  - \* Implemented a lightweight Google Sheets-based content management setup, enabling effortless client updates and automatic site redeployments.
- Astro, React, TailwindCSS, CMS, Build Hooks

## 🎓 Education

### Camosun College

Sept 2019 - Aug 2021

Information and Computer Systems

Diploma

- Acquired practical skills in programming, software deployment, security, and maintenance to meet industry standards.
- Gained hands-on experience in web and mobile programming, database design and management, software design, and the operations and maintenance of networks and software.
